Coru • A doorway in a postcard

Print at 100% / Actual size, without Fit to page.

Check the 100 mm line below with a ruler.

1. Cut out the 150 × 100 mm rectangle along its outer border.
2. Fold on the dashed line. Keep the cutting pattern outside.
3. Cut through both layers along all 29 crosswise lines.
   Always stop 5 mm before the opposite edge.
4. Cut the fold between the first and last crosswise cuts.
   Keep the two 5 mm end bridges uncut.

29 разрезов / 29 cuts

Blue lines with dots: crosswise cuts; each dot marks a stop.

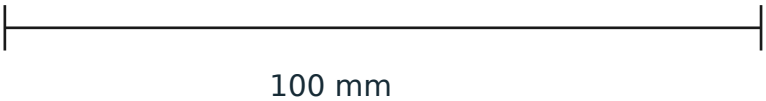

Red line: cut the fold AFTER the crosswise cuts.

Green ends of the fold: DO NOT CUT (5 mm at each end).

Position and line types also distinguish these instructions.

Open gently. Test the loop around an object first.

If too small, scale ALL dimensions up. Do not force the paper.
