

Draw what I describe

2 people · 3 rounds · Paper and pencil · Secret cards

The person drawing must not look at this page. Cover the other cards and show only this round's card to the describer. Keep the page upright.

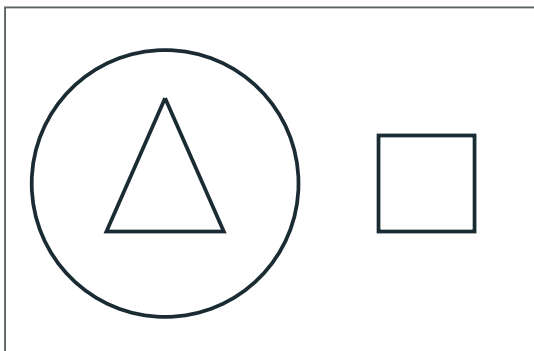

1. Neighbours

After the reveal, check:

1. There is exactly one square, one circle and one triangle.
2. The square is entirely to the left of the circle, with a gap between them.
3. The triangle is entirely above the circle, with a gap between them.

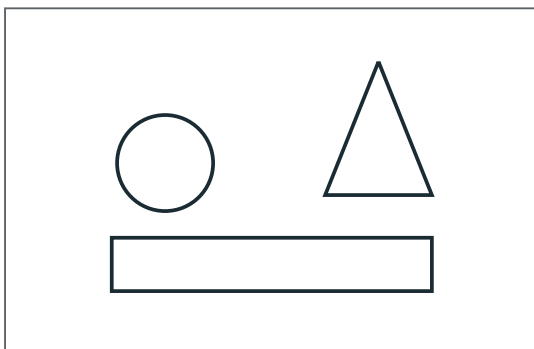

2. Inside and outside

After the reveal, check:

1. There is exactly one circle, one triangle and one square.
2. The triangle is completely inside the circle without touching it.
3. The square is entirely to the right of the circle, with a gap between them.

3. Above the bar

After the reveal, check:

1. There is exactly one rectangle, one circle and one triangle.
2. The circle and triangle are entirely above the rectangle without touching it.
3. The circle is entirely to the left of the triangle, with a gap between them.

The frame does not count as a shape. Exact measurements and neat lines do not earn points.

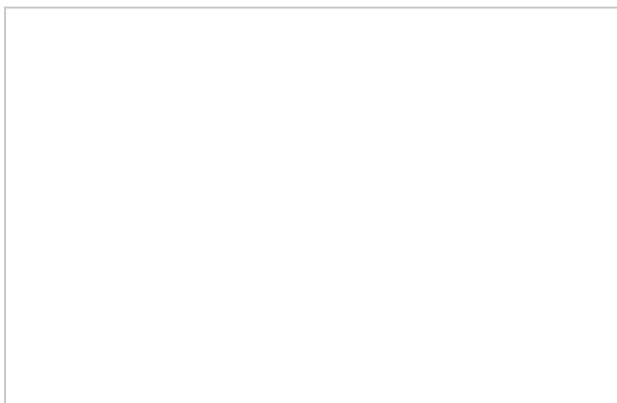

Drawing sheet

Round 1: A describes and B draws. Round 2: B describes and A draws. Round 3: A describes and B draws. Use the frame for that round; pass the sheet to the person drawing.

Words only: no gestures, showing the card or watching the drawing as it is made. Questions and erasing are allowed. When you finish, reveal the card and award one point for each check met. Share the total: 0-9. Change who starts next time.

Use the drawing person's left and right, with the sheet upright.

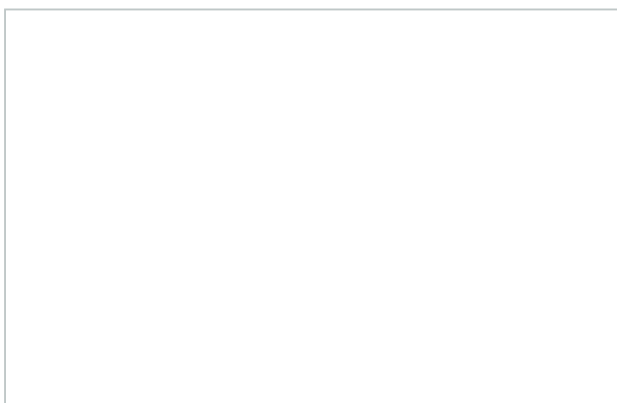

Round 1

Checks: 1 ☐ 2 ☐ 3 ☐
